Critical Power and Infrastructure Solutions

POWERWARE

Uninterruptible Power Systems	Applications	Size Range
Series 3 UPS	Stand Alone PCs & Work Stations	300VA - 650VA
Series 5115 UPS	Small Networks, Work Stations & Process Control	500VA – 1500VA
Series 5125 UPS	Business Networks, Servers & Telecommunications	1000VA – 3000VA
Series 9120/9125 UPS	Networks, Servers, Telecommunications & Critical Electronic Equipment	700VA – 3000VA
Series 9170+ UPS	Flexible Solutions for Mission Critical Applications (single phase)	3kVA – 18kVA
Series 9330 UPS	Server Rooms & Telecommunications	20kVA – 40kVA
Series 9320 UPS	Modular 3-Phase Solution for Critical IT Applications	10kVA – 60kVA
Series 9335 UPS	Server Rooms, Industrial Controls & Telecommunications	80kVA – 120kVA

Transient Voltage Surge Suppression	Applications	Capacity Per Phase
Leader Series (LSS)	Sub-Panels, Process Control	165kA – 225kA
Triton Series	Service Entrance, Medical Equipment	300kA
PBS Series	Integrated Panelboard	300kA
Dyna-System Series	Mission Critical Applications	225kA – 450kA

Harmonic Mitigation Products	Applications
Lineator (Universal Harmonic Filter)	VSD Harmonics Input Reduction
Neutral Current Eliminator (NCE)	Neutral Current & Voltage Distortion Reduction
Harmony Series Transformers	Increased Energy Efficiency & Harmonic Mitigation

Power Distribution Units

Portable Cooling Solutions

DC Systems & InfraStruXure
